

Dear Rebecca,

Please see below that I have submitted the responses for the queries.

However, we detected quite a few more corrections in the paper. Hope that all these changes will be incorporated without any problem.

There are four attached files in this email:

The first file is the paper file that I scanned and marked the corrections on, proof-reading-Kulturel.pdf.

You may find the corrections in a list form in the second file attached, response_toproofreading-IIETr-Kulturel.doc.

The third file attached is the corrected Figure 3 (a), Figure3(a).doc.

Finally, the fourth file attached is the signed copyright form, copyright-Kulturel.pdf.

Please let me know whether you are receiving all these files OK, and should you need any assistance, please let me know.

best regards,

So, one may use first or second file to incorporate

This e-mail confirms that you have submitted the following corrections to your proofs. Please review the journal and article titles below to make sure they are correct.

If any of this information is incorrect, please contact the Production Editor.

Bi-Objective Facility Expansion and Relayout Considering Monuments
By: Kulturel-Konak; Smith; Norman

Journal: UIIE IIE Transactions

Comments From: Sadan Kulturel-Konak

Date Sent: 20 Mar 2007

Date Returned: 26 Mar 2007

Correction#: 1

Query#: 1

Page#: 2

Line 151

QAP stands for the Quadratic Assignment Problem, and the first time we mentioned it is line 79, so add (QAP) after the word problem so that it reads quadratic assignment problem (QAP) formulation.

Correction#: 2

Query#: 2

Page#: 7

Line 493

On line 493, after $(w_1f_1+w_2f_2)$, it should read $(w_1f_1+w_2f_2)$, where f_1 and f_2 represent two objectives and w_1 and w_2 their corresponding weights, \hat{R} .
